

Dolgin Debuts 4-Position Battery Charger for Canon DSLR Series Cameras

October 20, 2010

Lexington, MA – Dolgin Engineering, a leading provider of fast multi position battery chargers and DC power adapters announced the release of the new 2 and 4-position battery chargers for Canon DSLR camera family.

Designed for video production studios and rental facilities, the unit is designed to provide fast, reliable charging of multiple LP-E6 camera batteries for both in-house and field use.

According to company president Alex Dolgin, "Due to the great success of our TC400/TC40/TC200 charger line, we've responded to numerous requests for a multi-position charger for the new Canon DSLR Series Cameras".

The flagship TC400-DSLR-C (\$549) incorporates a host of key features including:

- Fast, safe simultaneous charging of LP-E6 packs.
- Digital LCD display indicates the battery pack capacity.
- As a battery being charged, charge status is displayed in Volts, Ah, and percent of charge.
- Each of the 4 channels is fully independent of the other, all batteries are charged in under 2 hours.
- Worldwide 100-240V AC power or 12V car power for mobile use.
- Sleek, small and lightweight package (WxHxD) 8.4" x 2.5" x 6.6".
- Full 2 year manufacturer warranty.
- Designed and manufactured in the USA.

The TC400-DSLR-C also features a highly efficient smart charging circuit. "It takes only about 2 hours to charge a high capacity battery pack. The pack can be left on the charger after the charge is complete," said Dolgin.
